

# Intro to Nuisance Abatement Program

North Central Regional Planning Commission

This modified program is designed to assist communities in dealing with nuisances that are a safety hazard, that reduce property valuation and promote a negative image.

It addresses common nuisances such as: unlicensed, inoperable vehicles; uncontrolled weeds, grass, trees, and brush; buildings with broken windows or doors; outbuildings in disrepair; garbage and other waste; and other health and welfare concerns. This program helps lead to an attractive, safe and livable community with a positive image.

## About Our Services

The North Central Regional Planning Commission (NCRPC) staff has extensive knowledge of nuisance procedures. In addition to a comprehensive Nuisance Abatement Ordinance, we provide the following:

### Customized Solutions

Contract prices vary by community and the number of parcels. We will help you determine the largest impact.

### Impartial Assessment

As an outside third party, we are able to provide equitable treatment of all properties.

### Assistance

We will help guide your community as it carries out the administrative duties of the program.

## An Investment in Your Community

“Everyone in our community wins when our properties are taken care of. It positively impacts tourism and economic development, which is crucial for small towns like us to stand out. A sense of community pride has been fostered since this program’s implementation.” - Kim, Mayor
